

WINTER CLASSES

SPORTS TURF ONLINE LEARNING

Over the 2011/2012 winter period there are four online classes being run. Myerscough students have free access to these classes which are run online via the Adobe Connect platform. Places are limited, please book early.

Programme...

Turf Grass Diseases

29 November 2011

This is a level 2 (intermediate) class. Includes: Integrated Pest Management, the disease triangle and profiles of the common diseases that infect UK sports turf. All students welcome.

Cultural Practices & Cutting Heights of Golf Greens

13 December 2011

This is a level 2 and level 3 (advanced) class. Includes: What effect does the cutting height have on the golf green, discussing green speed, stress, and grasses. All students welcome.

Root Zone Technology & the USGA Specification

10 January 2012

This is a level 3 class. Includes: USGA specification golf green construction, STRI golf green construction and the perched water table. How these drainage systems work.

Irrigation Maths

14 February 2012

This is a level 3 class. Includes: irrigation design principles, calculating precipitation rates and run times.
