Best in Turfcare Machinery Training

Lely UK brings you the best in industry training by offering a range of land-based qualifications at its conveniently situated St Neots headquarters. The training portfolio has a strong focus on short courses to deliver the specialist skills required for a Certificate of Competence (CoC) qualification, which can lead on to a City & Guilds land-based services award.

Turfcare Training Courses 2016

Welcome to the latest turfcare training guide.

At Lely UK, we know that professional training is essential to get the most out of your turfcare machinery, and to ensure the upkeep of fine turf, which is why we are constantly developing and improving the training we provide for our customers.

These courses are for companies wishing to develop their employees' skills in the use of mowers, tractors or spraying units, and to identify and invest in their employees as competent operators.

Our courses can be delivered at your own premises, using your own equipment, ensuring your employees are trained in the environment they are most familiar with and at a time that best suits you.

We are committed to offering the highest quality training that our customers have come to expect from our training programme. This guide shows the complete range of courses, but should you wish to discuss any specific training requirements we will be happy to talk them through with you. And if you just want to know availability you can also email direct to turfcare.training.uk@lely.com.

We look forward to meeting you soon.

A handwritten signature in black ink, appearing to read 'N Adams'.

Neil Adams
Head of Turfcare Training, Lely UK

SAFETY IS PARAMOUNT: SERIOUS ACCIDENTS CAN AND DO OCCUR WITHOUT PROPER TRAINING. INDUSTRY STANDARDS RECOMMEND REFRESHER COURSES EVERY TWO YEARS.

Advanced Operator Training

Leading to a Land-based Services Qualification

Who should attend?

These courses are aimed at landscape contractors, greenkeepers, local authorities and farmers, looking to step up to the next level.

Course objectives:

- This is practical training and assessment in the use of mower operations, showing that the operator can manoeuvre the mower skilfully and safely.
- The test includes pre-use checks and maintenance; identification of controls and instruments and operating the machine.

Compact Tractor Driving Award

Who should attend?

These courses are aimed at local authorities, groundsmen and greenkeepers.

Course objectives:

Tractors are very versatile vehicles with a wide variety of uses, for business and more recreational users. The ever-wider range of types and attachments now available makes them even more flexible and effective tools in land-based industries. Performing maintenance to the standard of the manufacturer's instruction manual, and ensuring the tractor is in a safe road-going state, is of paramount importance. But even the most experienced tractor drivers need to update their knowledge and skills to get the best out of new machinery.

Unless stated otherwise, this course is 90% practical; you will need to provide a TYM tractor and attachments for a trailer.

How to find us

From London Luton Airport (LTN).

Distance to Lely, St. Neots, is 31 miles and approximately 60 minutes by car. A free shuttle bus connects the airport with Luton Parkway Station. From Parkway, trains run frequently to London King's Cross (journey time approximately 35 minutes) where you can get a connecting train to St. Neots.

By train. From London King's Cross, take a First Connect train to St. Neots. The journey

takes approximately 50 minutes. Lely is 100 yards from St. Neots' train station.

By car. From the A1, take the A428 following signs for Cambridge. At the first roundabout, continue on the A428. Follow the A428 over another roundabout (take second exit), and turn left at the next roundabout (take first exit). Follow the road down under the railway bridge and Lely is on the right.
